

**I/O 24 Switch / Push Button Board**

The I/O 24 Switch / Push Button Board shown below in diagram 1, allows for easy connection of a switch interface to the I/O 24 module and also provides visual indication of the switch states.

Diagram 1

The board consists of a slide switch and a push button for each I/O 24 port channels.

The connection between the I/O24 module and the Switch / Push Button board is via a 30 cm IDC connection cable. This cable is provided with the board.

The board has been designed to a 72mm standard width so that it can easily be mounted in DIN rail mounting modules.

**BOARD FEATURES**

- 8 x slide switch / push button for each of the I/O24 port pins
- Indication LED for switch status
- Easy connection by 10-way box header to suit standard IDC connector for connection to the I/O port
- 72mm Standard width for DIN Rail Modules
